TO LIGHT A THOUSAND LAMPS

A Theosophic Vision

Grace F. Knoche

Written with directness and warmth, this book shares a universal perspective on the central questions of human existence, while providing practical insights on daily living and spiritual growth. Offering a thoughtful critique of religious and scientific views and current practices in light of theosophy, the author presents the foundation ideas of mankind's spiritual heritage, addressing our responsibility as partners in a oneness that reaches to the core of each and every being. In so doing she suggests how we can live with dignity, purpose, and compassion, whatever our circumstances.

Grace F. Knoche was leader of The Theosophical Society and editor of *Sunrise* magazine from 1971 to her death in 2006.

An Invitation to THE SECRET DOCTRINE

H. P. Blavatsky

To those who would like to explore the essence of the *SD*, or who have had difficulty penetrating its two large volumes, *An Invitation to The Secret Doctrine* should prove welcome. Based on Blavatsky's study suggestions given to her personal students, it is a succinct and appealing statement of the *SD*'s principal teachings in her own words. Included are the Bowen notes of HPB's comments, relevant pages from *The Secret Doctrine*, photographs of HPB's manuscript, a historical account of "The Writing of *The Secret Doctrine*" by Kirby Van Mater, and a glossary of terms.

SECRET DOCTRINE COMMENTARY: Stanzas I-IV

Transactions of the Blavatsky Lodge

H. P. Blavatsky

In response to the demand for further light on the Stanzas of Dzyan, H. P. Blavatsky answered a variety of questions at weekly meetings of the Blavatsky Lodge of the Theosophical Society in London. Her replies illumine many important facets of the teachings that are often difficult for students and inquirers.

The discussions cover the first four stanzas of Volume I and treat such topics as cosmic genesis, universal mind, man's inner nature, the relation between consciousness and matter, religious symbolism, and the evolution of worlds and men. Of particular interest is a section on dreams.

THE SECRET DOCTRINE

The Synthesis of Science, Religion, and Philosophy

H. P. Blavatsky

Continuously in print for over 100 years, the *SD* remains today the most comprehensive sourcebook of the esoteric tradition, outlining the fundamental tenets of the “Secret Doctrine of the Archaic Ages.” Challenging, prophetic, and strikingly modern, it directly addresses the perennial questions: continuity of life after death, the purpose of existence, good and evil, consciousness and substance, sexuality, karma, evolution, and human and planetary transformation.

Based on the ancient Stanzas of Dzyan (with corroborating testimony from hundreds of sources), these volumes unfold the drama of cosmic and human evolution — from the reawakening of the gods after a “Night of the Universe” to the ultimate reunion of cosmos with its divine source. Supplementary sections discuss both relevant scientific issues and the mystery language of myths, symbols, and allegories.

THE SECRET DOCTRINE: INDEX

Prepared by John P. Van Mater

This companion volume is as much an index of ideas as it is of subjects, works, persons, and proper names. Major subject entries are cross-referenced; foreign terms identified by language, often with one or two word definitions. Cited works and authors, whose titles or names are not given in the *SD*, are placed in brackets for convenient identification. Includes an Appendix of foreign phrases with translation and source reference.

THE VOICE OF THE SILENCE

H. P. Blavatsky

I believe that this book has strongly influenced many sincere seekers and aspirants to the wisdom and compassion of the Bodhisattva Path. — 14th Dalai Lama

Translated from the Book of the Golden Precepts, which shares a common origin with the Stanzas of Dzyan of *The Secret Doctrine*, the rules and ethics presented in the *Voice* contrast the two paths of spiritual attainment: the one pursued by those seeking knowledge for their own enlightenment; the other chosen by those whose aspirations are prompted by compassion for all.

THE KEY TO THEOSOPHY

H. P. Blavatsky

Written in the form of question and answer, *The Key to Theosophy* is an excellent introduction for the inquirer. After the publication of *Isis Unveiled* and *The Secret Doctrine*, the author was deluged with questions about the human constitution, spiritual and psychological; the mysteries of periodic rebirths; and the difference between fate, destiny, free will, and karma. These and many other questions on the theosophical philosophy are answered simply and directly.

The work is enhanced by a 60-page glossary of philosophical terms drawn from Sanskrit, Hebrew, and classical literature.

ISIS UNVEILED

H. P. Blavatsky

One of the most remarkable productions of the century.
— New York Herald, 1877

Isis Unveiled is H. P. Blavatsky's first major literary effort, a critical response to the growing materialism in both scientific and religious institutions, and a vindication of mankind's ageless quest. In the author's words, *Isis* "is the fruit of a somewhat intimate acquaintance with Eastern adepts and study of their science. . . . They showed us that by combining science with religion, the existence of God and immortality of man's spirit may be demonstrated." Supported by extensive evidence from religious and mystical traditions, classical scholarship, and the testimony of nature, these volumes aid the student in detecting the vital principles underlying the philosophical systems of old.

Volume I focuses on the prevailing scientific theories of the time, balanced against the "anciently universal Wisdom-Religion."

Volume II examines the creeds of religions past and present, alongside the myths and symbols of various cultures.

Throughout, the author strikes at the root of dogma and affirms the "paramount importance of re-establishing the Hermetic philosophy in a world which blindly believes it has outgrown it."

This edition also includes two articles by H. P. Blavatsky on the writing of *Isis Unveiled*: "My Books" (1891) and "Theories About Reincarnation and Spirits" (1886).

STUDIES IN OCCULTISM

H. P. Blavatsky

Occultism (from the Latin *occultus*, meaning “hid”) refers primarily to the esoteric theosophy concealed in religion and nature. In this series of articles, HPB clarifies the “essential difference between theoretical and practical Occultism,” and the gulf that separates the potentially harmful occult arts from the path of altruism. Included is a 3-part article on “The Esoteric Character of the Gospels” which casts light on the mystery of Christ and the succession of messianic ages.

H. P. BLAVATSKY TO THE AMERICAN CONVENTIONS: 1888–1891

These messages are charter documents, addressing many issues confronting us today: spiritual and psychic development, dogma and sectarianism, the need for brotherhood and altruism, and the role of theosophists and the Theosophical Society in the modern world.

An essay by Kirby Van Mater provides the historical setting. Sketching important events from the founding of the Society to HPB's death in 1891, it gives the reader a better understanding of the major currents affecting H. P. Blavatsky and her lifework.

H. P. BLAVATSKY and the SPR An Examination of the Hodgson Report of 1885 Vernon Harrison, Ph.D.

In December 1885 the Society for Psychical Research (SPR) in London, England, published a 200-page report by Richard Hodgson. The report is perhaps best known for its denunciation of H. P. Blavatsky as an “impostor,” and is often quoted in encyclopedias, reference books, and biographical works.

In April 1986 the *SPR Journal*, “in the interests of truth and fair play,” published a critical analysis of the Hodgson Report by handwriting expert Vernon Harrison, who found it “riddled with slanted statements, conjectures advanced as fact or probable fact, uncorroborated testimony of unnamed witnesses, selection of evidence and downright falsity.”

Dr. Harrison, a professional examiner of questioned documents, continued his research, including a line-by-line examination of 1,323 color slides of the Mahatma Letters, and in a second monograph (1997) concluded that “the Hodgson Report is even worse than I had thought.” *H. P. Blavatsky and the SPR* combines both of Dr. Harrison's papers together with his Opinion, Replies to Criticism, formal Affidavit, and 13 full-color plates of sample pages from the Mahatma and Blavatsky letters.

H.P.B.: The Extraordinary Life and Influence of Helena Blavatsky

Sylvia Cranston

In her quest for truth and universal brotherhood, HPB opened a new realm of ideas to the world, influencing poets, writers, artists, philosophers, and scientists alike — among them Yeats, James Joyce, L. Frank Baum, Kandinsky, Mondrian, Scriabin, Gandhi, William James, Thomas Edison, and Einstein. Social historian Theodore Roszak ranks her “among the modern world’s trailblazing psychologists of the visionary mind.”

A product of 14 years’ research and writing, “this book portrays HPB’s supporters and detractors, using newly uncovered materials to present as complete a biography of this enigmatic woman and her wisdom as possible” (*Booklist*, American Library Association).

H. P. BLAVATSKY AND THE THEOSOPHICAL MOVEMENT

Charles J. Ryan

... some day, if not at once, the loftiness and purity of her aims, the wisdom and scope of her teachings, will be recognized more fully, and her memory will be accorded the honor to which it is justly entitled.

— Editorial, *New York Daily Tribune*, May 10, 1891

This well-researched portrayal of HPB’s life and work also covers the years following her death on May 8, 1891, and the efforts of theosophists to carry the movement into the next century. Combining primary source material with concise narrative, Professor Ryan has crafted a penetrating synthesis of history and philosophy which reveals the impact of spiritual truths on humanity’s thought-life. *2nd and Revised Edition*

THE LETTERS OF H. P. BLAVATSKY TO A. P. SINNETT

Transcribed and compiled by A. Trevor Barker

A companion volume to *The Mahatma Letters* (see next page), this correspondence from the 1880s is a profoundly moving documentary of H. P. Blavatsky's life and character. In the words of A. Trevor Barker:

The reader is therefore left to form his own conclusions as to whether the heroic figure which stands out so vividly in these pages was . . . what she claimed to be — no medium indeed, but the conscious Agent of the Masters who sent her forth, performing her prodigious task under conditions which would make the bravest halt; an occultist pledged to silence as to the true reasons for most of her actions, ever fearful of giving out too much, but yet through it all labouring so fiercely and wholeheartedly.

Helena Petrovna Blavatsky was born on August 12, 1831, at Dnipro (Ekaterinoslav), Ukraine, daughter of Colonel Peter von Hahn and novelist Helena Andreyevna (née de Fadeyev). In 1849 she married N. V. Blavatsky, and shortly thereafter began more than 20 years of extensive travel, which brought her into contact with mystic traditions the world over. She was the principal founder of the Theosophical Society in New York City in 1875, and devoted her extraordinary literary talents to its humanitarian and educational purposes until her death in London, England, on May 8, 1891.

In addition to her books, H. P. Blavatsky kept up a voluminous correspondence and a steady stream of articles to periodicals in English, French, and Russian. Fourteen volumes of her *Collected Writings* are now in print plus a Cumulative Index (see p. 29).

THE MAHATMA LETTERS TO A. P. SINNETT

Second & Revised Edition

Transcribed and compiled by A. Trevor Barker

No other book is quite like this private collection of letters. Preserved in the British Library, they were written between 1880 and 1890 to Alfred Percy Sinnett, editor of a leading Anglo-Indian newspaper, *The Pioneer*, and to his friend, Allan Octavian Hume, a founder of the Indian National Congress. Their correspondents were two Mahatmas whom H. P. Blavatsky had acknowledged as her teachers and the inspirers of *Isis Unveiled* and *The Secret Doctrine*.

First published in 1923, this important volume is filled with sublime philosophical and ethical instruction, revealing not only far-reaching concepts of religious and scientific thought (since proven in large degree prophetic), but also practicality, warmth of heart, patience, and ripeness of humor. The letters, moreover, yield a clearer understanding of H. P. Blavatsky and of the Mahatmas' aim in fostering a better understanding of our kinship with all peoples.

The term "Universal Brotherhood" is no idle phrase. Humanity in the mass has a paramount claim upon us. If it be a dream, it is at least a noble one for mankind: and it is the aspiration of the true adept.

This Second & Revised Edition includes several new appendices as well as a key to reading the Letters in chronological order:

1. First Letter of K.H. to A. O. Hume
2. View of the Chohan on the T.S.
3. Cosmological Notes
4. A. O. Hume's Reply to K.H.'s First Letter (Letter 99)

ECHOES of the ORIENT: The Writings of William Quan Judge

Compiled by Dara Eklund

Echoes are heard in every age of a timeless path that leads to divine wisdom and knowledge of our purpose in the universal design. Today's resurgent awareness of our physical and spiritual interdependence affirms those pioneering keynotes set forth in the writings of H. P. Blavatsky (see pp. 2-9). Her task was to re-present the broad panorama of the "anciently universal Wisdom-Religion," to show its underlying expression in the world's myths, legends, and spiritual traditions, and to show its scientific basis — with the overarching goal of furthering the cause of universal brotherhood.

Some have found HPB's books difficult and ask for something simpler. The writings of William Q. Judge, a co-founder of the Theosophical Society and close personal friend of HPB, help fill this need. His *Ocean of Theosophy* and *Letters That Have Helped Me* (see pp. 12-13) remain classics in the literature, describing in clear language the basic ideas of the wisdom-tradition and its path of spiritual quest. Yet the greater part of Judge's literary output is to be found in his magazine articles and other writings gathered together here in *Echoes of the Orient*.

Volume I comprises about 170 articles from *The Path* magazine, founded and edited by Judge. These are chronologically arranged and supplemented by his popular "Occult Tales." Also included are a well-documented 50-page biography, numerous illustrations, photographs, and facsimiles.

Volume II comprises Judge's "Hidden Hints in *The Secret Doctrine*," his lectures at the World's Parliament of Religions, articles and replies to questions in other magazines, and "Faces of Friends" who were actively helping the Theosophical Society in Judge's time.

Volume III contains tracts and pamphlets, newspaper and journal articles, miscellaneous articles and extracts, and "Suggestions and Aids" to fellow travelers on the Path.

Cumulative Index, a separate volume, merges the indexes from each of the above volumes.

THE OCEAN OF THEOSOPHY

William Q. Judge

In the early 1890s Judge recognized the need for a book on theosophy that could be readily understood by all. The *Ocean* provides a concise yet comprehensive survey of the basic tenets of theosophy. Written with the beginner in mind, it clarifies such topics as the sevenfold nature of man, reincarnation and karma, dangers of psychic practices and the pitfalls of pseudo-occultism, earth's sevenfold being, cosmic and terrestrial cycles, afterdeath states, the existence of highly advanced human beings, and many more. Here is knowledge based upon evidence and experience, written with brevity and depth.

William Quan Judge was born in Dublin, Ireland, on April 13, 1851. His family emigrated in 1864 to New York where he specialized in corporate law (New York State Bar, 1872). A co-founder with H. P. Blavatsky and Henry S. Olcott of the Theosophical Society in 1875, he later became General Secretary of its American Section and Vice President of the international Society. In this capacity he organized and presided over the Theosophical Congress at the World's Parliament of Religions held in Chicago during the 1893 Columbian Exposition. Writing and lecturing from coast to coast, he made theosophy known and respected throughout America. He died in New York City on March 21, 1896.

LETTERS THAT HAVE HELPED ME

William Q. Judge

The warmth and humanity of this collection of Judge's letters has inspired many seekers on the Path. In clear, compelling language, the author shows that in our search for spirit, the need is not to escape the world but to help transform it — through our constant effort to be compassionate, resolute, and wise in daily life.

It is Duty, Selflessness. Duty persistently followed is
the highest yoga, and is better than mantrams or any

duty it will bring you to the goal.* — 2:3

BHAGAVAD-GITA combined with ESSAYS ON THE GITA

The *Bhagavad-Gītā* is probably the most influential work India has produced. In the form of a dialogue between its hero Arjuna and the avatāra Krishna, this Hindu classic is an allegory of Man in his evolutionary development — a searching look at the “field of dharma.”

In 1890, responding to many requests for a non-academic exposition of the *Gītā*, William Q. Judge published the present edition, and also wrote several illuminating essays on the *Gītā*. These essays, issued together with his recension, make this volume unique among the many renditions of this ancient classic currently available.

THE GODS AWAIT

Katherine Tingley

Thought-provoking and inspiring, *The Gods Await* applies theosophic principles to human life and thought, emphasizing remedies for “man’s inhumanity to man.” It discusses freedom of ideas, world peace, and reformation of the criminal justice system — setting forth the problems with their root-causes and possible solutions.

Speaking to the intuition as well as the intellect, the author encourages us to recognize our duality and look to the spiritual center within, then act fearlessly — for “there is always another chance,” no matter what our apparent failures. Here is a plea for social action and individual renewal based on self-knowledge, compassion, and the innate divinity of mankind.

We are not brought into existence by chance nor thrown up into earth-life like wreckage cast along the shore, but are here for infinitely noble purposes.

Katherine Tingley (1847–1929)

During her leadership of the Theosophical Society (1896–1929), Katherine Tingley made universal brotherhood the focus of her wide-ranging activities. These included the School for the Revival of the Lost Mysteries of Antiquity; the Rāja-yoga system of education from preschool through university level; performance of Shakespearean and ancient Greek plays in the first open-air Greek theater in America; international peace conferences; prison reform efforts emphasizing the abolition of capital punishment — all are presented here, with biographical sketches and selections from Mrs. Tingley’s addresses and books.

THEOSOPHY: THE PATH OF THE MYSTIC

Katherine Tingley

Katherine Tingley appeals to the heart in simple, direct language, emphasizing the dignity of the individual and the power within each person to shape his own character and life. To her, theosophy is a practical and inspirational philosophy for daily living.

This book is compiled from talks and writings on theosophy and its applicability to living the mystic life, to education, prison reform, and the problems of society and human relationships. Katherine Tingley's great objective throughout the varied activities she undertook was to make theosophy "immensely serviceable" to all.

Never can we reach that point of spiritual discernment until we have found within our own hearts something new: a larger sympathy for all that lives, and a broader, deeper, grander conception of human life and the superb laws that govern it.

Katherine Tingley was born July 6, 1847, in Newbury, Massachusetts. Reared in an atmosphere of culture, she felt a profound sympathy for the victims of poverty, misery, and war, and worked all her life to alleviate suffering. In 1893 she met William Q. Judge, who introduced her to theosophy. Soon she knew that here was a philosophy which, if practiced, could lighten the burdens of humanity. Mrs. Tingley and Judge became coworkers and, upon his death in March 1896, she succeeded him as head of the Theosophical Society. In 1900 she moved its international headquarters to Point Loma, California, where she continued her humanitarian efforts and founded the Rāja-Yoga School, Academy, and College, and Theosophical University. She lectured extensively in the US and abroad until her death at Visingsö, Sweden on July 11, 1929.

FUNDAMENTALS OF THE ESOTERIC PHILOSOPHY

G. de Purucker

From 1924 to 1927 Katherine Tingley sponsored a series of private studies in *The Secret Doctrine*, with Dr. de Purucker as lecturer. This record of the meetings provides an excellent introduction to H. P. Blavatsky's masterwork, yet it stands on its own as a clear restatement of the philosophy expounded by all great thinkers and sages.

Beginning with the three fundamental postulates of the *SD*, the presentation moves to cosmic and human evolution, with emphasis on the interconnectedness of all beings. Other topics include man's nature and destiny; avatāras and buddhas; initiation, the Mysteries, and ethical values.

THE ESOTERIC TRADITION

G. de Purucker

H. P. Blavatsky pointed to the fundamental concepts of *The Secret Doctrine* as comprising the principles of a timeless ancient wisdom. Underlying and seeding the world's spiritual traditions, it is this doctrine and wisdom-teaching which G. de Purucker unfolds.

This new edition offers a broad, yet detailed introduction to theosophy, synthesizing philosophy, science, and religion in a way that enables the reader to see universes, worlds, humanity, and all nature as different aspects of one evolving cosmic pattern. And throughout the tapestry runs the thread of altruism and service as the way towards bettering all life.

FOUNTAIN-SOURCE OF OCCULTISM

G. de Purucker

Derived from twelve booklets of instruction to private students, *Fountain-Source* restores occultism to its original purity and recreates the atmosphere and discipline of the ancient Mystery schools. The scope of teaching is vast: the primeval wisdom-teaching; discipline and the spiritual path; the genesis, structure and destiny of galaxies and solar systems; correlations of cosmic and human constitutions; death and the circulations of the cosmos; and invisible worlds and their inhabitants. Addressed to all who sense the interrelatedness of human destiny with the cosmic design, and feel the call of altruistic service to humanity.

SUNRISE Special Issue: Gottfried de Purucker (1874–1942)

Portraying the man, his work as teacher, and his leadership of The Theosophical Society (1929–1942), this issue includes biographical and historical essays, excerpts from his writings and speeches, and reactions and assessments from both his own time and today. An excellent introduction to one of the preeminent interpreters of modern theosophy and the perennial wisdom.

\$6.00 paper, 6 x 9, 80 pages, 15 photographs

G. de Purucker was born on January 15, 1874, at Suffern, New York, son of an Anglican minister. In preparation for the ministry he specialized in Hebrew, Latin, Greek, and the writings of the early Church Fathers. However, study of Eastern philosophies and Sanskrit led him to theosophy with its broad comprehension of religion, philosophy, and science. After working closely with Katherine Tingley, he succeeded her as head of The Theosophical Society from 1929 until his death on September 27, 1942. Perhaps his greatest contribution to spiritual thought was his elucidation of the writings of H. P. Blavatsky.

THE PATH OF COMPASSION

G. de Purucker

Comprising the first two sections of *Fountain-Source of Occultism* (see p. 19), time-honored rules of ethical and spiritual conduct are presented here along with warnings against pitfalls of psychic development. There is no shortcut to wisdom, no instant enlightenment. While the path toward conscious union with our inner divinity demands fidelity and perseverance, it is also “bright with joy, and lighted with the fires of the spirit.”

EVOLUTION & CREATION:

A Theosophic Synthesis

W. T. S. Thackara

Addressing the controversy of intelligent design, this introductory booklet surveys critical problems in Darwinian theory and creationist theology: organic complexity and the origin of life; consciousness and matter; who or what is God; design, disparity, and imperfection; and the origin and evolution of man. The discussion reexamines these issues in light of theosophic concepts, suggesting there is a middle ground reconciling spiritual intuition and scientific knowledge.

EXPANDING HORIZONS

James A. Long

Widely used as an introduction to theosophy, this book features short essays and roundtable talks with varying age-groups. Here in refreshingly simple language is a re-presentation of “primeval spiritual ideas” distilled from the treasury of ancient tradition, the “god-wisdom” or *theosophia* inspiring every great religion.

Rather than providing ready-made answers to the problems of life, *Expanding Horizons* presents practical insights on those basic questions which go to the root of the human predicament.

James A. Long was born on August 27, 1898, at York, Pennsylvania. Following a career in private business, he served as a management consultant during WWII in the office of the Quartermaster General in Washington, DC, and was later transferred to the Department of State where he assisted in the changeover to peacetime responsibilities. While there he was sent as an Advisor to the US Delegation to the United Nations at the opening of the Second Session in 1946.

Mr. Long joined The Theosophical Society in 1935 and in 1939 became business manager of its American Section. He worked closely with Arthur L. Conger, whom he succeeded as leader of The Theosophical Society in 1951. The same year he founded *Sunrise* magazine, which he edited until his death on July 19, 1971. A primary aim of his administration was “to the best of our ability, to be an example of practical theosophy in action.”

Grace F. Knoche was born February 15, 1909 at the international headquarters of The Theosophical Society, then at Point Loma, California. There she attended the schools founded by Katherine Tingley, receiving a PhD from Theosophical University in 1944. In the 1930s and '40s she worked on the headquarters staff in the Press and in the secretarial and editorial departments. She also taught violin, Greek, Sanskrit, and Hebrew at Theosophical University, and painting and sculpture to younger students at the Lomaland School.

After serving as private secretary to two leaders of The Theosophical Society, Colonel Arthur Conger and James A. Long, in 1971 she became leader of the Society and editor of *Sunrise* magazine. Ms. Knoche passed away on February 18, 2006.

THE MYSTERY SCHOOLS

Grace F. Knoche

Behind the world's religions, philosophies, and sciences lies the hidden source of humanity's inner life and spiritual sustenance. Through the intellectual awakening of infant mankind millions of years ago to the subsequent foundation of Mystery colleges by great sages and seers, the author traces the theosophical movement back to the earliest times — describing the role of the brotherhood of adepts in preserving and disseminating the truths of nature and man, the purposes and methods of the Mysteries, the pattern of esotericism, routes of initiation, and the Mystery schools today.

THEOSOPHY in the QABBĀLĀH

Grace F. Knoche

What are the essential teachings of Qabbālāh, the Jewish esoteric wisdom passed on for millennia from teacher to pupil? In this clear presentation, Grace F. Knoche concentrates on principal Qabbalistic themes: the emanation of the universe, the Sēfirōthal Tree of Life and its cosmic and human symbology, the Four Worlds of creation, the Four Adams or Heavenly Archetypes, and the composite structure of our being and its bearing on sleep, death, and initiation. To elucidate their meaning, the author compares Qabbalistic concepts and symbols with equivalents in modern theosophy, particularly in the works of H. P. Blavatsky and G. de Purucker, revealing Qabbālāh as one stream of the universal wisdom tradition of mankind.

About Theosophical University Press

In April 1886, eleven years after the founding of the Theosophical Society in New York City, William Q. Judge began publication of *The Path* magazine. Three years later a printing press was purchased for the production of additional magazines, books, and pamphlets and, shortly before he died in March 1896, Judge renamed the facility Theosophical Publishing Company. In 1900 his successor, Katherine Tingley, transferred the Society's world headquarters and its publishing operations from New York to Point Loma, California. New printing equipment was purchased and high quality books, monographs, and magazines in English and other languages were issued, including unabridged reprints of *Isis Unveiled* (1906) and *The Secret Doctrine* (1909). In 1919 Katherine Tingley founded Theosophical University and ten years later, under G. Purucker's direction, the Society's publishing activity acquired its present name. During World War II, the international headquarters of the Theosophical Society and its publishing facility moved to Covina, California, and in 1951 to the Pasadena area.

THE PATH

Reginald W. Machell

This symbolic painting hangs in the administration building at the international headquarters of The Theosophical Society, Pasadena, California. It is in oil and gesso, measuring 6' 2" x 7' 5". In the artist's words, "THE PATH is the way by which the human soul must pass in its evolution to full spiritual self-consciousness." The full-color reproduction, suitable for framing, is printed on acid-free heavy paper. Enclosed with it is the artist's interpretation of its symbolism.

Reginald W. Machell (1854–1927), a member of the Royal Society of British Artists, exhibited at the Royal Academy in the late 19th century. After having met H. P. Blavatsky in London in 1888, he joined The Theosophical Society. In 1900 he was invited by Katherine Tingley to the Society's international headquarters, then at Point Loma, California, where he gave fully of his considerable talents in art, drama, and literature until his death.
